LIMITATION OF LIABILITY AND DISCLAIMER OF WARRANTY

No representation is made that any of the programs, computer source code, commands, or configurations described and depicted in this manual and in the computer source code accompanying this manual are error-free and suitable for any application that you may develop. Joe Pluta (author) and Rochester Initiative (publisher) make no warranty of any kind, expressed or implied, including the warranties of merchantability or fitness for a particular purpose, with regard to the information, examples, and computer source code presented in this manual and on the accompanying distribution media. Everything provided in this manual and on the accompanying distribution media is provided "as is". Author and Publisher shall not be liable in any event for incidental or consequential damages or any other claims, pursuant to your use of any of the techniques presented in this manual, or your use of the computer source code in programs that you develop, even if Author and/or Publisher have been advised of the possibility of such damages.

You are responsible for testing any and all programs, configurations, commands, and procedures presented in this manual prior to using the programs, configurations, commands, and procedures with important user data. You must ensure that adequate and sufficient backup of important user data is available, in the event that recovery of the important user data is required.

Table of Contents

Introduction.....	1
What This Course Will Do	1
